ABOUT ME

I am a passionate and hardworking individual with a solid foundation in programming and design. I have hands-on experience with Java and Python, along with a basic understanding of machine learning concepts. I'm also skilled in front-end development using HTML, CSS, and have used Figma for UI design. I enjoy solving problems, learning new technologies, and building practical solutions. I am seeking an entry-level opportunity to apply and grow my technical skills in real-world projects.

PROJECTS

• PORTFOLIO

Tech Stack: HTML, CSS, JavaScript

Developed a personal portfolio website to showcase my skills and projects. Added sections like About Me, Projects, Resume, and Contact. Designed layout using clean and responsive HTML/CSS.

• IMAGE AUTHENTICITY AND BLUR DETECTION (Ongoing)

Tech Stack: Python, OpenCV, Machine Learning

Designed a system to detect image tampering and assess blur levels using computer vision techniques. Implemented feature extraction methods to compare image authenticity metrics across datasets.
